

# INCLINIC PRECEPTORSHIP (ICP) TRAINING AND INTERNSHIP PROGRAM HELD ON LOCATION IN CANADA

Integrative Medical Inclinic Preceptorship (ICP) Training and Internship Program – Bioidentical Hormone Replacement Therapy (BHRT) for Men & Women  
EDUCATOR: Esther Konigsberg, MD

**Includes healthcare professional manual + certificate + medical references**

*Open to all licensed healthcare professionals across borders*

## **Inclinic Preceptorship Training and Internship Includes:**

- Clinical Application of Bioidentical Hormone Therapy (BHRT) Guidelines for Men & Women
- Clinical Application of Testosterone Replacement Therapy (TRT) Guidelines for Men
- Clinical Application of Thyroid Evaluation and Treatment Guidelines
- Hormones – Progesterone, Estrogen, Testosterone, Thyroid, DHEA
- Supplements, Diet, Stress Management, & Lifestyle Guidelines
- Supplements and Their Usage in Preventive Medicine Practice

**Interact with patients while shadowing Dr. Konigsberg, MD one-on-one LIVE inclinic. A fully integrated, age management, Bioidentical Hormone Replacement Therapy (BHRT) clinical practice model to help improve quality of life, and prevent disease for men and women of any age.**

**We also offer full BHRT clinic integration & setup with ongoing support | Clinic staff sales training | Public Relations & Marketing (fee involved)**

## Objectives for Learning:

To teach and mentor healthcare professionals, and clinicians on disease prevention through restoring and rebalancing the hormones, adrenals and thyroid. We have found there are many healthcare professionals who have attended other BHRT courses around the globe but then need help to pull all the pieces together into a practice and require support with BHRT clinical guidelines and/or mentoring by a seasoned MD.
